MICHIGAN MEN ARE IN REVOLT

Hope That Speaker Cannon Will Retire.

PENNSYLVANIA MEN RESTLESS

Delegation From the Keystone State Is Thinking of Supporting a Man to Succeed Uncle Joe in the Chair—Dallzell Has Been Mentioned, But Is Not Likely to Be in the Race If There Is a Race.

Washington, Jan. 18.—There were some developments in the Cannon speakership-insurgent-rules situation in the house of representatives. A poll of the Michigan delegation revealed that Congressmen Townsend, McLaughlin and Hamilton are decidedly anti-Cannon; that Loud hopes to heaven Uncle Joe will quit without being pushed; that Dieken has announced himself as a candidate for the job and that Denby, Fordney and McMillan think that the present speaker is all right and will vote that way until the cows come home. Smith, Gardner, Dodds and Young are still sitting on the fence.

It became known that the Pennsylvania delegation is thinking of supporting a man to succeed Mr. Cannon in the house. Dallzell has been mentioned, but is not likely to be in the race if there is a race. On the other hand it is thought that if any East-

JOHN DALZELL.

ern man has a look in, Congressman Olmsted, who knows a good deal about parliamentary law and practice, would be as strong or stronger than anybody else.

Some members of the Pennsylvania delegation are growing because in their opinion Uncle Joe hasn't treated them fairly or treated the Atlantic seaboard fairly with respect to membership on the rivers and harbors committee and the waterways commission. There will be no announcement from this delegation now, but it was understood that if it becomes apparent that Mr. Cannon is bound to go down and out as far as the speakership is concerned Olmsted will be pushed to the front.

Anti-Cannon Majority.

The Minnesota delegation, while having made no announcement for publication, is known to have an anti-Cannon majority.

The insurgent situation in the house of representatives and there is a bit of a situation, despite the recent harmony agreement, is all tangled up with Representative "Red" Hayes' whiskers.

Mr. Hayes has been insubordinatingly violent for some time. He was the spokesman during the recent conference at the White House of those members who had jumped the reservation and allied themselves with the Democrats in a successful attempt to take from Speaker Cannon the power to name the six house members of the Ballinger-Pinchot investigation committee.

In pursuance of the victory so won the Democrats caucused last Saturday evening and selected Congressmen Ollie James of Kentucky and Rainey of Illinois as minority members. Mr. Hayes' bronze wind registers waved wildly in the breeze as he said unkind and uncomplimentary things about Messrs. James and Rainey. Tears were in his eyes as he told a group of newspaper men that in his opinion the Republicans of the house should stand together and prevent the election of these two unamiably selected in caucus of Democrats.

Mines to Open.

Butte, Mont., Jan. 18.—Announcement was made here that all of the mines of the Boston and Montana copper company will have resumed operation by the end of this week. The production of copper will then have resumed its normal volume in this field.

Held for Wisconsin Officers.

Madora, N. D., Jan. 18.—Dewey Butler, wanted at Shawano, Wis., on a burglary charge, is held in jail here for the Wisconsin officials.

NEW EVIDENCE INTRODUCED

Swope Poison Case Becomes More Interesting.

Kansas City, Jan. 18.—If the examination of the stomach of Colonel Thomas H. Swope, now being made by Chicago physicians, reveals poison an autopsy will be made on the body of James M. Hunton, a close friend of the dead millionaire, who died in the Swope home on Oct. 1, two days prior to Colonel Swope's death.

The demise of Hunton was sudden and similar in many respects to that of Colonel Swope. Apoplexy was given as the cause of death. Relatives of Colonel Swope believe, however, that an examination of Hunton's body might aid in solving the chain of mysteries that has developed in the Swope residence.

Virgil Conklin, the co-prosecutor, said that he would start no criminal action in the case on his own initiative merely upon the receipt of a telegram from attorneys of the Swope heirs now in Chicago, saying poison had been found in Colonel Swope's stomach.

Before he will issue a warrant for an arrest he must have sworn statements from Doctors Ludwig Hektoen and W. S. Haynes, who are making the examination, saying they found poison.

WALL FALLS ON FIREMEN

Two Have Remarkable Escape From Death.

Gladstone, N. D., Jan. 18.—The Gladstone flour mill was completely swept by fire while the workmen were at dinner. The stock and machinery were destroyed.

A wall of the building, which was a stone structure, fell, partly burying two firemen, John Hughes and William Hiser. Both were extricated, however, after a narrow escape from death, with no more injuries than numerous bruises.

INTENDS TO SECURE SOME INDICTMENTS

Iowa Official Begins Probe Into High Price of Food.

Des Moines, Ia., Jan. 18.—With a view to securing indictments, County Attorney Guthrie has commenced a probe into the cause of the prevailing high food prices. He declares he has evidence tending to show that a combine exists between grocers, butchers and bakers. The grand jury already has some evidence on the subject before it.

St. Louis, Jan. 18.—Attorney General Major of Missouri, in a statement declared his intention of investigating the methods of the alleged meat trust with a view of giving the consumer a relief from the exorbitant prices now being charged for meat and foodstuffs of all kinds.

The inquiry will be inaugurated as soon as the press of business will permit. The attorney general's staff of assistants are now gathering data, and if this show that any particular set of men, or combination of firms, are responsible, and if they can be reached by the law, drastic action will be taken.

Cleveland, O., Jan. 18.—Cleveland's meat strike is on. The movement which began half an hour in a factory spread like wildfire over the city, and may take in the entire country. Thousands of workmen in Cleveland factories have joined the strike, and by the end of the week the leaders expect 15,000 heads of families in line, involving about 65,000 of the city's population.

Local jobbers in meat say the widespread refusal to buy meat in Cleveland may result in knocking down the local retail prices, but that it can scarcely affect the packers who, they say, are responsible.

But if the meat strike becomes general, local dealers say then the price of meat must tumble.

SAVED FROM SINKING SHIP

Captain and Family and Six Sailors Have Narrow Escape.

San Francisco, Jan. 18.—Rescued from the sinking schooner San Buena Ventura, after being tossed for two days and three nights by giant waves, without food and water, Captain Rap Moudt, his wife and baby, his sixteen-year-old son and six members of his crew were landed here and sent to the hospital.

The schooner left Eureka for San Francisco, heavily laden with lumber. She had barely put to sea when she encountered the same gale that wrecked the Caribia, killing twenty-four people.

Fatal Quarrel in Iowa.

Sioux City, Ia., Jan. 18.—Otto Nigling, aged forty years, he is in custody at Lemars accused of shooting and killing Elmer Church, fifteen miles southeast of this city, and wounding Dell Church in a quarrel supposed to have resulted from a drinking bout.

Snow Melting in Iowa.

Des Moines, Ia., Jan. 18.—With warmer weather the heavy layer of snow and ice covering Iowa is disappearing, but the railroads fear another fall of snow. At present all trains are running, but coal shortage continues.

CHARGES MADE BY HITCHCOCK

Congressman Attacks Secretary Ballinger.

IMPROPER USE OF FUNDS

Alleged That Federal Official Used Public Money to Pay His Private Traveling Expenses—Asserted That a Cousin of the Secretary of the Interior Was Given the Position Law Clerk Wright Had Occupied.

Washington, Jan. 18.—Charges against Secretary of the Interior Ballinger and other officials, including allegations of improper use of public funds to pay private traveling expenses of a second cousin of the secretary, were made in a statement filed by Representative Hitchcock of Nebraska with the house committee on expenditures in the interior department.

The statement was presented by Mr. Hitchcock at a meeting of the committee called to permit him to substantiate his charges of extravagance in the interior department. The committee decided to issue subpoenas on Secretary Ballinger, Commissioner Denet of the general land office and all others interested in the charges, to appear as witnesses before the committee next Wednesday.

The affidavit alleges improper use of the million-dollar appropriation "for the protection of the public domain against frauds" by the purchase of thousands of dollars' worth of expensive furniture, the employment of some eighty additional clerks, whose duties did not concern the public domain; salaries increased and in one case at least doubled (citing the case of Chief of the Field Service Schwarz, whom he alleges received \$700 more than his immediate superior); long telegraph bills, "which cover long extracts from the newspapers sent in by traveling representatives of the general land office; selection of special agents not at all qualified, etc."

Reduced Wright's Salary.

The statement asserts that when Mr. Ballinger became commissioner of the general land office, before entering the cabinet, he reduced the salary of Law Clerk Wright so that Judge Wright's salary "could be given to Jack Ballinger," his cousin, not under the title of law clerk, but under the title, created by Mr. Ballinger's order, of confidential clerk.

"I have been told Wright died of disappointment and humiliation soon thereafter," Jack Ballinger remained a year in the service, the statement says, his manner of living, about the time his uncle resigned, in March, 1908, being alleged to illustrate "the reckless expenditures of the land office."

"It was announced," the statement goes on to say, "that young Jack Ballinger was leaving the land office to resume law practice in Seattle. In order that he might receive a final rakeoff he was designated as special temporary inspector of offices, an evident outrage on the treasury. This enabled him to draw traveling expenses from Washington to Seattle and a per diem also. Within two weeks after he reached Seattle he resigned to resume law practice, including, of course, practice before the land office out there and also in Washington."

Mr. Hitchcock suggested to the committee names of government employees who could furnish specific information, explaining that he was "persona non grata" with the interior department.

SOLD FOR TWENTY DOLLARS

Pretty Girl Bartered by White Slave Agents.

New York, Jan. 18.—The price of a comely girl in New York is \$20. For this sum Elizabeth Harzo, twenty years old, was "sold" to a woman maintaining a resort in East Seventy-ninth street, according to indictments returned by the Rockefeller grand jury, which is investigating the white slave traffic in Greater New York. Six indictments in all were returned and two arrests were made almost immediately thereafter. Paul Drinko and Philip Mangold, who were held in \$7,500 bail each for trial. They went to the Tombs in default of bail. They are charged with abducting and selling the Harzo girl.

High Dam Near Completion.

Cody, Wyo., Jan. 18.—The last bucketful of cement to complete the big government dam to impound flood waters of the Shoshone river, eight miles above Cody, was put in place and the event is being celebrated in true Western style. The dam is the highest structure of its kind in the world, 328 feet.

Ends His Life With Bullet.

St. Paul, Jan. 18.—John Clayton, a watchmaker, sixty years old and unmarried, shot and killed himself in his room. His body was found lying at length on the floor. By his side was a 38-caliber revolver. Clayton had been in ill health and despondent for several weeks.

THREE INJURED IN WRECK

Breaking of Wheel Flange Derails Freight Near Afton, Minn.

Hastings, Minn., Jan. 18.—An extra southbound freight train, in charge of Conductor C. P. Upton of Minneapolis, was wrecked near Afton. The caboose and five cars loaded with coal were derailed. The wreck was caused by a flange on a wheel of the fifth car from the rear of the train breaking and tearing up the frog.

The caboose turned over twice and the occupants, Conductor Upton and John Black, brakeman, and Bat Steffen, proprietor of the Phoenix hotel of this city, were injured. Mr. Upton received a sprained back and severe bruises and Mr. Black and Mr. Steffen were rendered senseless for a time. The former also sustained a scalp wound and Mr. Steffen's injuries are of a serious nature.

Dr. L. D. Peck, surgeon of the St. Paul road, was summoned and left on a special for Afton.

NO MERCY FOR MIKE ROSSI

Governor Eberhart Refuses to Commute Death Sentence of Murderer.

Duluth, Jan. 18.—Mike Rossi, the convicted murderer of the local Italian colony, can expect no mercy from Governor Eberhart. Learning that the governor did not approve of capital punishment, Rossi's friends appealed to him to commute the death penalty to life imprisonment. The governor will not interfere, and unless the pardon board takes some action in the case, he is expected to set a date soon for Rossi's execution.

While the governor is known to oppose capital punishment, he will enforce the law as long as it remains on the statute books. If Rossi hangs it will be the first hanging to occur in St. Louis county for seventeen years.

MONDELL PRESENTS BILL IN THE HOUSE

Provides for Issuance of Bonds for Reclamation Projects.

Washington, Jan. 18.—The issuance of \$30,000,000 worth of government ten-year 3 per cent bonds for reclamation projects, desired by the administration, is provided for in a bill introduced by Chairman Mondell of the house committee on public lands. Mr. Mondell also offered the only other of the eight bills sent him by President Taft and Secretary Ballinger, which he approves, to allow more liberal assignments of homestead entries of reclamation lands.

Mr. Mondell said the president. Upon leaving the White House he declared that his position in the matter had not been correctly stated. He said he was not at loggerheads with the president and was not opposed to conservation. He objected, however, to the form and purpose of four of the most important of the eight bills prepared by Secretary Ballinger to carry out the president's wishes.

Representative Martin Dies of Texas resigned from the pension committee of the house because he is opposed to the pension system as now administered. Mr. Dies declared he favors general pension laws, but opposes private pension bills.

"Every man on the payroll of the government is anxious to have his pay increased," declared Mr. Dies. "The president has announced himself in favor of pensioning government employees. In the meantime congress is spending nearly \$100,000,000 a month and the people are groaning under high living expenses. If this thing continues it will soon be worse than the militarism of Europe. There every laborer must work to support a soldier. In our case, every laborer will be compelled to work to support a pensioner. I am heartily opposed to the system and I am glad to be off the committee."

FARMERS AWAIT PRICE RISE

Grain Is Held From Buyers Until Better Offers Are Made.

Grand Forks, N. D., Jan. 18.—The independence of North Dakota farmers has been shown by their action in the past few days in storing their grain in elevators, following the slump in prices. The high prices which have been prevailing of late caused the farmers to rush their grain to the market in large quantities, but with the break in prices this movement has stopped and North Dakota farmers are simply waiting for the price to go up again before they put their grain on the market.

Jones Gets Ten Years.

Fargo, N. D., Jan. 18.—Andy Jones, the wrecker of the First National bank of Rugby, N. D., was sentenced by Judge Amidon in the federal court to ten years on each of the thirteen counts of which Jones was convicted. However, as these terms run concurrently, the sentence is only ten years in length.

Gaynor Hears Girl Strikers.

New York, Jan. 18.—Two delegates representing the girl shirtwaist strikers succeeded in getting an audience with Mayor Gaynor and, after hearing their troubles, the mayor promised to bring about a settlement of the strike, if possible, although he made no specific recommendations.

WILL NOT USE PATRONAGE CLUB

SENT TO PRISON FOR LIFE

Frank Sadler Sentenced for Murder of Lawrence Ropre at Ely, Minn.

Duluth, Jan. 18.—Frank Sadler, convicted at the last term of district court for the range at Virginia of murder in the first degree, was sentenced by Judge Hughes in district court here to confinement in the state prison at Stillwater for life.

Sadler was convicted of killing Lawrence Ropre at Ely on Aug. 8.

Sadler, Ropre and several other men had been drinking at the boarding house of Frank Bergant. There were some words between Sadler and Ropre and shortly after Ropre left the house Sadler having preceded him. Later on Ropre was found lying on the ground with a gaping cut in his head and Sadler standing by. Sadler had no weapon in his hand, but an axe was found near the place.

Ropre died and Sadler's conviction on circumstantial evidence followed.

Doxey Plead Not Guilty.

St. Louis, Jan. 18.—Dr. Loren S. Doxey and his wife, Dora E. Doxey, indicted for first degree murder on a charge of poisoning William J. Erder, were arraigned and each entered a plea of not guilty through their attorneys. The case will be heard at the next term of court.

DARING FLIGHT FOR PAULHAN

French Aviator Hopes to Fly Over Sierra Madre Mountains.

With Edmund Cleary, his manager, acting as interpreter, Louis Paulhan, the daring French aviator who is one of the competitors in the aviation meet at Los Angeles, Cal., was asked about

LOUIS PAULHAN.

his plans and his view of the prospects of beating the new records made abroad.

"Can you do better than Latham?" he was asked.

"Oh, yes. That is why I came."

"He flew higher than 3,000 feet the other day. Can you beat that?"

"Yes," Paulhan answered.

Then, pointing toward the snow clad Sierra Madre, gleaming in the sun above a curtain of clouds, he asked:

"How high is that?"

"More than 4,000 feet," he was told.

"Well, I'll fly over that."

GRAIN AND PROVISION PRICES

Minneapolis Wheat.

Minneapolis, Jan. 17.—Wheat—May, \$1.10 1/4 @ 1.10 3/4; July, \$1.10 @ 1.10 1/4. On track—No. 1 hard, \$1.12 1/4 @ 1.13 1/4; No. 1 Northern, \$1.11 1/2 @ 1.12 1/2; No. 2 Northern, \$1.09 1/2 @ 1.10 1/2; No. 3 Northern, \$1.07 1/2 @ 1.08 1/2.

Duluth Wheat and Flax.

Duluth, Jan. 17.—Wheat—To arrive and on track—No. 1 hard, \$1.11 1/4; No. 1 Northern, \$1.10 1/4; No. 2 Northern, \$1.08 1/4; May, \$1.10 1/4; July, \$1.10 1/4. Flax—In store, to arrive, on track and May, \$2.12 1/4; Sept., \$1.66.

St. Paul Live Stock.

Hogs—Light, \$4.80 @ 5.70; mixed, \$3.35 @ 8.85; heavy, \$8.40 @ 8.85; rough, \$8.40 @ 8.60; good to choice heavy, \$8.60 @ 8.85; pigs, \$7.25 @ 8.35. Sheep—Native, \$4.00 @ 6.00; yearlings, \$6.75 @ 8.00; lambs, \$6.15 @ 8.70.

President Taft Confers With Minnesota Men.

NOT WORRYING ABOUT CANNON

But Chief Executive Is Deeply Interested in the Welfare of the Republican Party and in the Enactment of Laws That Will Redeem the Platform Pledges of 1908—Representative Miller Is Satisfied With the Conference.

Washington, Jan. 18.—President Taft made it plain to three prominent Minnesotans that he is not using nor will he use the patronage club to force Republican insurgents into line for Speaker Cannon or the house rules.

The president is not worrying about the speaker or the rules, but he is deeply interested in the welfare of the Republican party and in the enactment of laws that will redeem the platform pledges of 1908. Mr. Taft emphasized his position at a luncheon at which Representative Miller of Duluth and Frank B. Kellogg and C. A. Severance of St. Paul were his guests.

Mr. Miller is the insurgent through whom it was first made known that postoffice appointments and other patronage was being withheld temporarily from Republicans while the administration sized up the situation in congress.

Mr. Miller left the White House in a happy frame of mind. "I think I may say that no Republican member who gives his honest and earnest support to the legislation redeeming the promises of the Republican national platform will have occasion to complain of the treatment that is accorded him on questions of patronage," he said. "By that I understand that when it comes to patronage the Republicanism of a member is not to be measured by attitude toward the speaker or the house rules."

Patronage Not Discussed.

The subject of patronage was not under discussion at the White House, but it is believed a distinct idea as to the president's position toward congress was secured. He wants legislation, he wants the country to have the laws the people have a right to expect after they elected a Republican president and a Republican congress last year; he wants the pledges of the Chicago platform made good. Naturally he seeks and expects the co-operation of all Republican members, whether they are insurgents or regulars, when other matters are at issue in the house or in the party caucus.

The president made it clear to his Minnesota callers just what legislation he wants congress to enact at this session. While the Minnesotans did not say so in terms it is known that he is primarily interested in four measures at this time, namely, the postal savings bank bill, the bill limiting the use of injunctions in labor disputes, the bill giving statehood to Arizona and New Mexico and the bill amendatory of the interstate commerce act.

ONE MAN INSTANTLY KILLED

Dry House of Wisconsin Mine Is Dynamited.

Hurley, Wis., Jan. 18.—The dry house at No. 1 shaft of the Windsor mine, which is operated by the Olanah Iron company, one mile west of Hurley, was dynamited. The motive is unknown. The building was badly wrecked.

A man named Davis, in charge of the dry house, was killed instantly.

Henry Groves, mine boss, suffered a fracture of one leg and the loss of an eye. Superintendent Camello's leg was broken. Three or four Polish miners were also more or less seriously injured.

Fourteen sticks of dynamite, with a fuse partly burned, were found under the opposite corner of the building. Had the explosion occurred ten minutes earlier it would have caught 100 men in the building.

Ten sticks of dynamite were found lodged in a shaft at the second level, with the fuse partly burned. Had this exploded it would have closed the only exit of the mine.

COSTLY FIRE IN ST. PAUL

Building Occupied by Furniture Company Burned.

St. Paul, Jan. 18.—Fire partially destroyed the four-story brick building at 23 East Seventh street, occupied by the American Housefurnishing company, with a stock of goods valued at \$80,000. The salvage was uncertain, but Louis A. Weidenborner, president of the company, estimated the loss at \$70,000, with \$60,000 insurance. The loss on the building probably will reach \$20,000, fully covered by insurance.

The fire is supposed to have been caused by crossed electric wires.

The Dumdund Bullet.

The dumdund bullet is named after the place, near Calcutta, where it was first made.

TUESDAY, JANUARY 18, 1910.

The election of the state fair officers had more of the ear marks of a sharp political scrap than that of the annual meeting of the "hoss" trotting association.

If the Chicago man did as reported and actually remarried his divorced wife while under the influence of liquor it is quite possible that liquor will do anything to a man.

The candidacy of Gov. Eberhart for the republican nomination does not please Joel Heatwole, the Northfield newspaper man and politician, and he is not backward in making the statement that if Eberhart is the republican nominee for governor he will not support him.

There is a man at Fergus Falls that cuts some ice according to report. The new machine he has just invented, with one man to operate, it will easily do the work of ten men and twenty teams, and as there some doubting ones the inventor is going to show them that he knows what he is talking about.

The Moorhead city council at its last meeting separated the salary of the water and light commission from the gentlemen who are serving on the board. Heretofore the salary has been \$600 a year but each member has consented to serve without pay. Moorhead now boasts of the most economical municipal administration it has ever enjoyed.

Ramsey county already has three candidates who will ask for recognition at the hands of the next republican state convention. Justice E. A. Jaggard will ask to be returned to his present position, Geo. Dix will ask for the nomination as clerk of the supreme court, and an endorsement on a non-partisan basis will probably be offered by T. D. O'Brien's friends. Ramsey county will probably please the country if it concentrates on Judge Jaggard.

That dollar dinner the democrats are going to give is causing considerable comment among the newspaper brethren. Interest centers on exactly what the menu will consist of as it is understood that when the democrats give a feed it is an elaborate affair and the table just groans with good things to eat. Of course we never attended a democratic dollar dinner, but along with the other good fellows we are anxious to learn just what an elaborate feed would consist of that could be purchased at the present rate of prices for \$1.00. Possibly the democrats have the present situation solved and could give the public pointers on how to buy cheap.

D. M. Clark & Co. are prepared to do business again. They are located in the Gardner block. All orders will receive prompt attention. 128tf

The wicked stood in slippery places last night and this morning—and the gods were not much better off. The streets have not been as icy in a long time as they have been the past 24 hours.

White Cross Lodge, No. 30, K. of F. will install officers tomorrow evening at the Commercial Club rooms. A social time and refreshments will follow the work. All visiting Knights are welcome.

Thomas Willis was taken to the Northern Pacific hospital yesterday suffering from typhoid fever. A brother of Axel Johnson is also ill at the Northern Pacific hospital with the same disease.

Mr. and Mrs. Geo. Warner left today for St. Paul where he will attend the grand lodge of the A. F. & A. M., and she will visit relatives. Mrs.

Warner's mother, Mrs. Neilson, who has been with them for some time went down this afternoon also.

There will be a big dance in Walker's hall next Wednesday evening, Jan. 19. Good music and a large time assured. Tickets 50c. Ladies Free. 1912p

R. P. Blake has been appointed master mechanic of the Montana division of the Northern Pacific railroad with headquarters at Livingston. Mr. Blake was for some time in the employ of the company in this city and his many friends here will be pleased to learn of his promotion.

The choir of St. Paul's Episcopal church were the guests of the Misses Ethel and Irma Parker last evening. The choir first enjoyed a long sleigh ride starting out from the Parker home. They returned after the ride, to the house where a most delightful time was spent, after which a lunch was served. The younger members then went home, but the older ones continued the good time. Everyone present confesses having had the most enjoyable of evenings.

Mistress-at-Arms—Mayme Latta.
Sergeant—Ella Carbine.
Sentinel—Matilda Krech.
Picket—Helen O'Brien.

After the work, lunch was served and a social hour enjoyed.

Notice

Water rents are now due and payable at the secretary's office, City hall.

WM. NELSON,
1925 Sec. Water & Light Board.

An Old Sailing Vessel.

Modern steamships have a very brief life as compared with the old sailing vessels. The Princess Mary, which conveyed King William III, to England from Holland in 1688 and was then over seventy years old, lasted until 1827. This vessel was retained as a royal yacht until the reign of George I, by whose orders she was sold. As the Betsy Cairns she sailed to the West Indies and back for over fifty years and then after another change of ownership was employed as a collier until Feb. 17, 1827, when she struck a rock and was totally wrecked.

President Helps Orphans

Hundreds of orphans have been helped by the president of the Industrial and Orphan's Home of Macon, Ga., who writes: "We have used Electric Bitters in this institution for nine years. It has proved a most excellent medicine for stomach, liver and kidney troubles. We regard it as one of the best family medicines on earth." It invigorates all vital organs, purifies the blood, aids digestion, creates appetite. To strengthen and build up pale, thin, weak children or rundown people it has no equal. Best for female complaints. Only 50c at H. P. Dunn's.

The Sun and the Earth.

The diameter of the sun is 865,000 miles. It would take 300,000 bodies like the earth to weigh as much as the sun. It has been calculated that the earth utilizes only the two-billionth part of the heat that is thrown off by the sun. The path followed by our planet in its course around the sun measures 582,000,000 miles, involving a speed on the earth's part in order to make the journey on schedule time of eighteen miles a second, over 1,000 miles an hour, many times faster than the fastest express train, much faster indeed than a rifle bullet.

If You Are a Trifle Sensitive

About the size of your shoes, it's some satisfaction to know that many people can wear shoes a size smaller by shaking Allen's Foot-Ease, the antiseptic powder, into them. Just the thing for foot aches, corns, blisters, and for breaking in new shoes. When rubbers and shoes become necessary and your shoes pinch, Allen's Foot-Ease gives instant relief. Sold everywhere, 25c. Sample FREE. Address Allen S. Olmstead, LeRoy, N. Y. Don't accept any substitute.

SUNSHINE JAIL FOR CHICAGO.

Glass Roof Giving Light to All Cells, Which May Kill Crime Germs.

Chicago is to have a new city jail that will be a model for all jails, according to plans now in the hands of Assistant Chief of Police Herman F. Schnettler.

Instead of being in the damp and insanitary basement all the cells, 150 in number, will be on the top floor of the building. Then instead of the regulation dark roof Chief Schnettler has provided for a heavy glass roof, so that every cell will be bathed in sunlight, making the cells cheerful and sanitary instead of breeding places for disease.

"Sunshine kills crime germs," he declares.

The roof of the building instead of being a waste space is to be devoted to an exercise room for prisoners. The roof will be flat, with a sufficiently high wall to warrant safety, and will be divided into departments for those held on different charges.

Mexican Houses.

The main walls of many houses in Mexico are from three to six feet thick to withstand earthquake shocks.

Won't Need a Crutch

When Editor J. P. Sossman, of Cornucius, N. C., bruised his leg badly, it started an ugly sore. Many salves and ointments proved worthless. Then Bucklin's Arnica Salve healed it thoroughly. Nothing is so prompt and sure for ulcers, boils, burns, bruises, cuts, corns, sores, pimples, eczema or piles. 25c at H. P. Dunn's.

LITTLE BUSINESS WAS TRANSACTED

City Council Held Record Breaking
Session Monday Night Adjourn-
ing at 8:30

ALDERMAN & ATTORNEY CLASH
Zakariassen and Ryan Have Sharp
Bout Over Latters Failure to
Draw Ordinance

Quite a large crowd that had gathered to witness what was expected to be a very lively council meeting Monday evening were grievously disappointed. The members were all there on the dot and got down to business promptly.

Immediately following roll call and reading of the minutes of last meeting the report of the finance committee on the condition of the city treasury was read and approved.

A written report was received from the finance committee recommending that no action be taken at the present time in the matter of increasing the license fee.

A proposition was read before the city council from R. D. Holden that if the city would limit the number of saloons to two and would fix the license fee at \$10,000 he would take one license and find a satisfactory party to take the other license. The matter was referred to the license committee.

A communication was read from E. C. Blanchard, general superintendent of the Northern Pacific railway, regarding the application of the city for the use of certain blocks for the purpose of piling rock. The communication stated that one of the two locations asked for was needed by the store department of the company for storing work train equipment, etc., but that the other could be had for a nominal rental, and asking the council to make application therefore in regular form through Geo. W. Mosier, the local agent. The matter was referred to the street committee.

A motion to adjourn was then made, but President Twohey staved it off to voice a complaint from the residents of the Third ward that the water dripped from the edge of the awning on the East hotel onto the center of the sidewalk and made a ridge of ice which was very dangerous to pedestrians. On motion the city clerk was requested to write Mr. Geo. Forsyth, the owner of the property, asking her to remove the awning which is said to be constructed contrary to the ordinance.

The city clerk brought up the matter of the abatement of the taxes on the haymarket property and said that the law required that there should be an application from the owners of the property before any action could be taken by the county commissioners. He was requested to send Mr. Hayes the proper blanks and ask him to make the application, after which it was understood that the council would recommend the abatement, as per previous action in the matter.

Alderman Drexler stated that C. D. Herbert reported the sewer at the corner of Sixth and Main streets to be clogged and the water to be backing up into his building. The street commissioner was instructed to investigate the complaint and take such action as was necessary.

The water and light board, through Wm. Nelson, its secretary, asked permission to rearrange the city clerk's office so that it would accommodate

the two forces better. The request was on motion granted.

Henry Poppenberg, a member of the county commissioners, was present and stated that since the city took up the matter of having the city jail heated by the boiler at the county jail they had been compelled to put in a larger boiler because of damage by fire, and that they could now heat the city lockup and would do it at cost. Alderman Drexler, from the police committee stated that inasmuch as the council had levied a tax for a public building fund it had been deemed wise not to make any change in the method of heating the city jail at present, but to continue the use of stoves.

About the only episode of the meeting approaching the sensational or even reaching a point of intense interest was a sharp and heated colloquy between Alderman Zakariassen and the city attorney regarding the ordinance which the city attorney was ordered to draw prohibiting Sunday shows. The alderman wanted to know if the ordinance had been drawn yet and the attorney stated that he had been in district court 11 of the 12 days since the last meeting of the city council. Mr. Zakariassen then asked if that was a legal excuse for his failure to do his duty as city attorney. President Twohey here interposed that Alderman Zakariassen's motion was irregular; that an ordinance commission had been appointed and that the matter should have been referred to it. Attorney Ryan also rather heatedly replied that he was not going to leave work in the district court to draw ordinances. He further stated that the ordinance was not needed and would not do the city any good; that if the city had been suffering from it he would have attended to it. Ald. Zakariassen retorted that the city attorney was not hired to legislate for the council and that they were capable of doing that without dictation. At this point Alderman Gardner made a motion that the city attorney be granted more time. It was seconded, there were one or two faint ayes and no noes being heard the president declared the motion carried and matter passed over—for the time being.

The council then adjourned at the unheard of hour of 8:30.

Took all His Money
Often all a man earns goes to doctors or for medicines, to cure a stomach, liver or kidney trouble that Dr. King's New Life Pills would quickly cure at slight cost. Best for Dyspepsia, indigestion, biliousness, constipation, jaundice, malaria and debility. 25c at H. P. Dunn's. tsw

TEN YEARS IN THE PEN
Andy Jones Sentenced to Ten Years on Each of 13 Counts to Run Unitedly

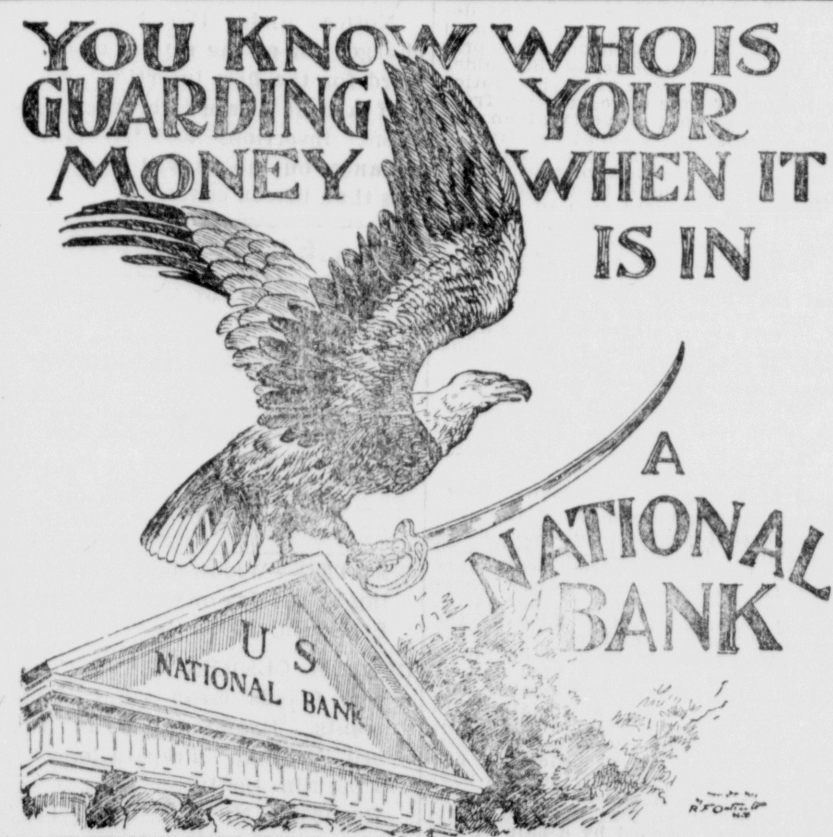

At Fargo Monday Andy Jones, the North Dakota bank wrecker, was sentenced to be confined in the federal penitentiary at Leavenworth, Kansas, for a period of ten years for each count, the penalty to run concurrently.

WARNING
Owing to the presence of quite a few cases of typhoid fever in our city, I would advise all residents to BOIL FOR AT LEAST 30 MINUTES all drinking water, no matter from what source.

R. A. BEISE,
Pres. Board of Health.

Edwards-Petrie
The marriage of Henry Edwards and Martha Jane Petrie, both well known residents of this city, took place last evening at the parsonage of the Methodist Episcopal church with the Rev. Chas. Fox Davis officiating. The pleasing ceremony was witnessed by a few friends, and the short service of the church was used. They will reside on Main street for a couple of months, in the spring going on to their farm home.

Piles
We are so certain that itching, bleeding and protruding Piles can always be relieved and absolutely cured by this ointment that we positively guarantee satisfaction or money refunded.
50 cents a box at all dealers or Dr. A. W. Chase Medicine Co., 1111 Broadway, N. Y. City.

WILL HAVE A FINE LODGE HALL

Work on Odd Fellows Building Has
Progressed Far Enough to Show
Room's Beauty

DECORATORS ARE AT WORK

Handsome Furniture Has Been Ordered and Will Be Installed
When Room is Ready

Work on the remodeling of the Odd Fellows hall, made necessary by the fire of October 26th, has progressed far enough to show that the lodge room and other apartments will be beauties when completed. The carpenter work, which is being done by White Brothers, is nearly completed, except as to laying the floors, which will not be done until the painters and decorators get through with their work. Wallace & McCaffrey have the contract for this part of the work and have already commenced work. They expect to be from ten days to two weeks completing their task. The lodge rooms will be done in mahogany finish birch, the lower portion of the walls being finished in panels.

In addition to the lodge room there are a large number of closets for the regalia, etc., of the various orders using the hall. Provisions have been made for the installation of a fine electric lantern. A commodious kitchen is also included in the plans. It is expected that the rooms will be ready for occupancy about the middle of February.

The lodge has ordered an entirely new outfit of furniture, said to be the handsomest lodge furniture ever ordered for Brainerd. The lodge is to be congratulated on the manner in which it will be able to emerge from the disaster caused by fire last fall.

DR. BRUNS
The eye specialist, who fits glasses correctly will be at the Ransford hotel January 26 and 27. 1913

MUSIC AND DRAMA

Come Attractions.
January 22—"The Merry Widow."
Jan. 24—"Polly of the Circus."
Jan. 26—"The Man of the Hour."

Bijou.
Spalding Bros. comedy acrobats, late of Ringling Bros. circus, played to a packed house last night at the Bijou theatre. Their act is the best of its kind seen at this popular play house for some time. Spalding Bros. make a complete change of act on Thursday. As a special attraction for the balance of the week Kohlas & Miller will put on a comedy sketch, entitled "Twenty Minutes in New York." Commencing on Thursday and continuing for the balance of the week three shows will be given each evening. Doors open at 7:00 and first show at 7:30.

"Polly of the Circus"
Thompson's massive production, which comes to Brainerd January 24, has the record of the Liberty theatre, New York city, having played there one solid year and was the biggest success seen in New York last season. Mr. Thompson has made this attraction one of the most talked of plays in the land, and it is the largest scenic equipment that will be seen here in years to come. Mr. Thompson built the Hippodrome and the most gigantic amusement enterprise that this or any other country has seen, or will ever see. Luna Park, Coney Island in New York, and his "Polly" is as realistic as human ingenuity can make it.

"Merry Widow"
Manager Hall's announcement for Saturday evening, Jan. 22, is Henry W. Savage's New York production of the fascinating operetta, "The Merry Widow." "The Merry Widow" stands by itself—a present day light opera classic that will enjoy the long, healthy life of "Pinafore," "The Mikado," "The Gypsy Baron" and others of similar ilk. When present day theatre patrons have passed into another generation it is more than likely that "The Merry Widow" will be touring the country to the infinite delight of the youngsters who, with their parents, are now-a-days crowding the theatre where the charming Viennese operetta is on view.

Bijou
Spalding Bros. comedy acrobats, late of Ringling Bros. circus, played to a packed house last night at the Bijou theatre. Their act is the best of its kind seen at this popular play house for some time. Spalding Bros. make a complete change of act on Thursday. As a special attraction for the balance of the week Kohlas & Miller will put on a comedy sketch, entitled "Twenty Minutes in New York." Commencing on Thursday and continuing for the balance of the week three shows will be given each evening. Doors open at 7:00 and first show at 7:30.

Neuralgia In the Face

Long standing case completely cured by DR. A. W. CHASE'S NERVE PILLS

Headache and Neuralgia. What hosts of people seek for cure of these ailments. And in vain.

Because they are misled by going after medicines which only relieve. Dr. A. W. Chase's Nerve Pills are not a relief for headaches and neuralgia, but they are a thorough cure in the only way these troubles can ever be really cured—by restoring the nervous system.

Mrs. E. Bridgen, 312 East Adams St., Syracuse, N. Y., states: "Until I used Dr. A. W. Chase's Nerve Pills I was never free from attacks of distressing neuralgia in cold months and suffered from a draft even in summer time. Other remedies relieved only, but these Nerve Pills stopped the attacks, due I believe to their building up power."

Neuralgia and nervous headaches are always an indication of exhausted nerves. Make the cure thorough by using Dr. A. W. Chase's Nerve Pills, 50 cts. at all dealers or Dr. A. W. Chase Medicine Co., Buffalo, N. Y. Portrait and signature of A. W. Chase, M. D., on every box.

H. P. DUNN, Druggist.

TO OPEN BOWLING ALLEY

Alleys in the Globe Hotel Will be
Opened Thursday,
Jan. 20

The three alleys in the basement of the Globe hotel have been remodeled and will be opened to the public on Thursday evening by Wm. Turcotte and Fred Peterson. They have had the alleys polished with an electric floor polisher, which makes it one of the best bowling alleys in the northwest. As these young men are well known they ought to make good in their new enterprise.

JURY VERDICT FAVORS GREEN

After Being Out all Night Jury Returned Finding in Favor of Plaintiff

DITCH CASE NOW ON TRIAL

Suit Brought by T. W. Harrison Because of Damage From Ditch No. 10 Now On

The jury in the case of W. S. Green vs. James M. Hayes and Elizabeth Hayes, after being out all night, returned a verdict sustaining the plaintiff on all but two of the ten questions submitted to them. The case was one brought to set aside a deed to eighty acres of land given by Green in part payment for the Hayes livery barn on Front street some years ago. When Green surrendered the barn Hayes alleged that he was only to return the notes and chattel mortgage on the stock, while Green claimed he was to return the deed to the land. Judge McClenahan's decree in the case, which will be based on the findings of facts, has not yet been handed down. The two points upon which the jury found in favor of Hayes were that he did not warrant the horses to be sound, as alleged, and that he did not state that he had paid \$500 for the hack, as charged.

The court today is engaged in the hearing of the case of T. W. Harrison, of Topeka, Kan., against the board of county commissioners of Crow Wing county, and others. The suit is brought because of alleged damage to Mr. Harrison's property by the construction of county ditch No. 10. Mr. Harrison is conducting his own case and Judge J. H. Warner is appearing for the county. County Attorney Fleming having been attorney for Mr. Harrison when the case was commenced.

DISPATCH ADS PAY—TRY IT

At Congregational Church

The preaching at the Congregational church this evening in connection with the evangelical services now in progress in the city, will be by the Rev. C. B. Hilton, who will take some theme of interest to the movement. He will be followed with a short address by the Rev. Charles Fox Davis.

The Swedish Methodist church, where the service was held last evening, was crowded to the doors, the people unable to get seats. The sermon by the preacher was on "Christ's Interview with the Scholar," and was a direct message to all present. The pleasing feature of the series thus far is the fact that the service commences on time and closes on time. The committee gives a hearty invitation to all. Service at 7:45.

BRAINERD MAN IS TREASURER

M. T. Dunn, of Citizens' State Bank Elected Treasurer of State Fair Association

ELECTION CAME AS A SURPRISE

Mr. Dunn States He Was Not a Candidate and Did Not Know His Name Was Mentioned

M. T. Dunn, president of the Citizens' State Bank received a telephone message today from St. Paul announcing that he had been elected by the board of directors of the State Fair association to the position of treasurer. Mr. Dunn states that the election came as a surprise to him as he was not a candidate for the place and did not know that his name was being considered. He also states that he is not sufficiently acquainted with the duties of the position to give out any definite information, but understands that they will not interfere with his duties here. Mr. Dunn's many friends will extend hearty congratulations.

E.C.BANE'S

REAL ESTATE AGENCY

THE MAN OF THE HOUR

"Perry," scolded Dallas as soon as the broker disappeared through the long windows, "how could you treat a guest of uncle's so rudely?"

"I don't like the fellow. And I don't like what I read in the paper today about him and you. Gee, what a meanly paragraph! It's enough to make a white man want to dash out his brains with a cigarette. You're going to deny it in time for the retraction to get into tomorrow's papers, aren't you?"

"I'm not quite sure."

"Good Lord!" gasped Perry, slumping down in the nearest chair. "Are you crazy? Say, if you are looking for a real good, exciting match why don't you marry a Wall Street stock report? It'd be better 'n Gibbs. If you marry him you'll only be an 'also ran' with the ticker tape and the market news. Oh, keep out of it, old girl! You owe something to your intelligent and distinguished little brother. If you've got to commit matrimony, marry some one I like, can't you?"

"I haven't given him a definite answer yet," admitted the girl, a little touched by the real feeling that underlay her brother's blurted words.

"That's good medicine. Confidence restored and the run on Brother's fiancée is checked. Next time you get the marry bee I have a dandy candidate to suggest for the job."

"Who?" laughed Dallas, amused in spite of herself.

"Alwyn Bennett!"

"How silly!"

"Not on your life! Words of wisdom from the young—that's what it is. Go ahead and marry Bennett. Be a sport and say 'Yes.' Why don't you want to marry him?"

"For any one of a million reasons. First of all, he never asked me to."

"Maybe he's scared to. But if he wasn't stuck on you he wouldn't be hanging around here every day and going everywhere with you the way he does. I'll bet 99 he's—"

"Mr. Bennett!" the butler announced. Brother and sister stared guiltily at each other.

"Speaking of angels!" muttered Perry. But Dallas had already turned to welcome the visitor.

Alwyn Bennett at first glance had

little to distinguish him from the average good looking young man about town. But a closer observer would have noticed a firmness about the shapely mouth, an honesty and strength of purpose about the eyes, a general air of latent power that lay unawakened beneath the jolly, purposeless exterior. No crisis had yet called forth any special manifestation of this power, and meanwhile Bennett was content to loaf through an existence that thus far had been decidedly pleasant.

Dallas Waterwright.

The only son of a widowed mother who advised and spoiled him, more than comfortably well off from the great fortune amassed by his dead father, possessed of a social position unassailable and equally fortunate in that mysterious quality that spells popularity—all these gifts had saved Alwyn Bennett the trouble of fighting life's battle or showing who might be within his reach.

"Good old Bennett!" hailed Perry. "We were just talking about you."

"Good!" answered Alwyn. "Anything is better than indifference. What were you saying about me?"

"You tell him, Dallas!" grinned the boy.

"Be quiet!" whispered his sister, flushing with vexation.

"Then I'll tell for myself," went on Perry gleefully. "I was just asking her—"

Seeing the girl's confusion, Bennett quickly changed the subject by interrupting:

"My mother will be over here in a few minutes, Dallas. She is bringing along a guest of ours, who says you and she were chums at school—Miss Garrison."

"Cynthia Garrison! Oh, I'll be ever so glad to see her again! I—"

"I know who she is!" cried Perry, refusing to be snubbed. "They say she's a gorgeous looking. When her kennel was under the hammer I bought in her two pet Boston terriers, Betty and Prince. Maybe that won't make me solid with her, eh? Well, I guess. All I ask is a start, and you'll find a whole lot of cripples slower than I'll be. If they're walking over I might wander out, sort of aimless-like and happen to meet 'em. Maybe that's a bum idea? Good old me!"

Full of his Machiavellian scheme, the lad bolted through the long window and was gone.

"Dallas," began Bennett, without preamble, "you must surely know why I'm here today. You've seen that paragraph in the—"

"I have seen it," she answered quietly.

Taken aback by her manner, Bennett hesitated an instant; then asked nervously:

"The—rumor isn't true, Dallas? Tell me it isn't."

"Why shouldn't it be true?" she countered perversely, as though not wholly sorry to witness the new look her words called to his face. The look deepened as Bennett continued:

"You don't love Gibbs? Surely you don't love him?"

"I—"

The French windows swung wide, breaking off her reply.

(TO BE CONTINUED)

One Pill

Ask your doctor about Ayer's Pills, gently laxative, all vegetable. He knows why they act directly on the liver.

It is impossible to be well, simply impossible, if the bowels are constipated. Waste products, poisonous substances, must be removed from the body at least once each day, or there will be trouble. The dose of Ayer's Pills is small, only one pill at bedtime. All vegetable.

TWOBLY'S LOVE OF BEAUTY

How Late Millionaire Banker Showed His Love for His Country Estate.

Hamilton McKown Twombly, millionaire banker of New York and brother-in-law of William K. Vanderbilt, who died recently at his country home, Florham Park, at Madison, N. J., was born in Boston and received his schooling there. He went to Harvard and was graduated with the class of 1871.

For a great many years Mr. Twombly, who was a director of many companies, took a lively part in the affairs of both business and society. He put a great deal of his energy and his love of the beautiful into his estate at Madison, with its model farm. He had several children, the oldest of whom, a girl, died at the age of sixteen, fourteen years ago; Florence, who married William A. M. Burden in 1904; Ruth, who made her debut three years ago, and a son, who is named for himself. It was largely to give these children an outdoor life that he designed the place, but the farm he planned chiefly for the interest of his boy.

Florham covers almost 400 acres. It is a great park, laid out in gardens, dotted with hundreds of specially transplanted trees and crossed in all directions by stone ballasted avenues.

The house, standing at the head of a gracefully terraced lawn, resembles closely Hatfield House in England, the home of Lord Salisbury. The farm, its stables and spotless dairy, brought in at one time from the sale of its milk alone an average of \$2,000 a year. The milk came from a herd of Guernseys, the first of them imported, among which are many ribbon winners. The milk, it is said, was peddled from a \$1,200 wagon, drawn by a pair of thoroughbreds, worth \$1,500, in gold mounted harness. The farm wagons, too, were drawn by thoroughbreds.

From his flowers—he specialized in orchids and chrysanthemums—there came yearly some \$25,000. All of them were raised in the most scientific way in elaborate greenhouses, of which the most notable was the palm house, standing sixty-four feet above the ground and topped by a mammoth dome.

But Mr. Twombly lost interest in these things, and in his business, too. In the summer of 1906, when the thing happened which is largely accountable for his death. His only son was spending a few months at Big Squam lake, near Ashland, N. H. He was eighteen years old, had just been graduated from Groton school and had elected to spend his last vacation before entering Harvard in helping to run the camp

managed there by Groton boys. On July 5 the boys started to swim to Caru's grove, a mile distant from camp. He had gone but a few hundred yards when he sank. No one could reach him in time to help him.

The news of the boy's death was a great shock. The father's friends say he never recovered from it at all. At all events, it was not for a year or two that he returned to Madison, the place so closely associated with his children, and when he did it was not with the old interest. About that time, too, he began gradually to withdraw from the active business enterprises in which his great fortune had interested him.

Mr. Twombly was a stickler for details. For one thing, he could not bear to be late at any engagement. It is related of him that once in the summer of 1905 to keep a dinner engagement at Newport he chartered a special train in Springfield, Mass., made the 100 miles intervening between there and Boston in 103 minutes and easily caught the train he had to take from there to Newport.

Only One

There is only One Oil Heater for the housekeeper who wants the Best.

By best is meant thorough, all-around work and faultless efficiency down to the smallest detail.

This work must be performed day after day without fuss and fume and without smoke.

PERFECTION Oil Heater

(Equipped with Smokeless Device)

No other oil heater in the world has attained the high heat efficiency and the sure smokeless performance reached by this splendid achievement of modern science.

Turn the wick up as high as it will go—there's no smoke—as low as you please, there's no smell—no fuss.

In raising, the wick is checked before it reaches the point at which it would smoke, by the new, quickly-removed

Automatic Smokeless Device

The flame is at its zenith of power, when the wick is locked, thus getting the heater's full capacity.

The heat is as cleanly as that which comes from a steam radiator—and more certain. You may have it just where you want it—beside the window—in the library—in the bath room or in the living room.

Brass font holds 4 quarts of oil—burns 9 hours. Finished in nickel or Japan. Various styles and finishes. Dampers too—cool handle—aluminum window frame.

Every Dealer Everywhere. If Not At Yours, Write for Descriptive Circular to the Nearest Agency of the

STANDARD OIL COMPANY

TO TREAT CANCER BY TRANSFUSION

Science on Eve of Great Discovery, Says Dr. Ewing.

NEW BLOOD TO EXPEL GERMS.

Experiments on Dogs Made at Cornell Medical College Lead Expert on Pathology to Believe That Human Victims of Scourge Can Be Benefited.

Experiments recently made on animals has convinced Dr. James Ewing, head pathologist of Cornell Medical college and president of the American Society for Cancer Research, that science is on the eve of discovering a cure for cancer in the human body. Such a forecast recently made by Dr. Ewing is especially cheering in view of the recent assertion of Dr. Harvey R. Gaylord, chief of the State Cancer hospital at Buffalo, who said:

"The increase of cancer in the state of New York is little short of appalling. It now takes half as many lives as tuberculosis."

In speaking of the laboratory study of cancer at the Cornell Medical college Dr. Ewing said:

"Many tests were made upon dogs, with the result that animals which had been suffering with malignant cancer were positively cured. The method pursued was to bleed a dog afflicted with the disease until it was nearly lifeless, then connect its veins with a healthy animal and fill them with new blood. Some of the animals treated have been watched for over a year after the operation, but none showed any recrudescence of the disease."

Tests Confined to Animals.

"Whether or not man could be cured of cancer by blood transfusion is, of course, a matter of conjecture. This test has never been applied to any human being. Furthermore, the experiment brings the patient so near death that for ethical reasons no physician would care to advise this sort of treatment for a human patient. Yet I see no particular reason why a man suffering from cancer should not be benefited by the re-establishment of a new blood supply as is a dog."

"I am prompted to speak freely because of the fact that in spite of the enormous progress science has made in the study of cancer the cry has been raised that vivisection or animal experimentation should stop. If these people who oppose us would themselves stop to learn how much good has already been accomplished for the human race as the result of the work they decried they would cease trying to oppose us."

End of Problem May Be in Sight.

"Although it may be unsafe to make any predictions, it is certainly legitimate to claim that the therapeutic principles established by experiments on lower animals will prove applicable in some form to man for cancer as for diphtheria. We may therefore assert that the end of the cancer problem is in sight."

"By pursuing the principles discovered in the laboratory we may confidently hope to prevent the occurrence of some cancers, to bring others to a standstill and greatly to reduce the incidents and mortality of the disease."

"In the study of cancer, more than any other disease, it has been proved that the investigator should be permitted absolute freedom in animal experimentation. For more than a century all efforts to transplant tumors from one animal to another proved fruitless. Then at last it was accomplished and new experiments made possible to test or try for a cure."

"It later was proved that in animals into which cancerous growths were transplanted a self agent manifested itself which effected a spontaneous cure. Thereafter these animals were immune. It was dogs that had been thus rendered proof against cancer that were used in furnishing the blood for those that were cured of the disease."

Dr. Ewing said that in combating the disease it was of prime importance to seize it early. The use of the knife was sufficient oftentimes in inoperable cases to ward off the disease, if not actually cure it.

Feature of Chicago Automobile Show.

An expenditure of more than \$75,000 is to be made for decorations for the Chicago automobile show to be held Feb. 5 to 12 in the Coliseum and First regiment armory under the auspices of the National Association of Automobile Manufacturers. The scenery is now being prepared by a large force of artisans under the direction of Manager Samuel A. Miles. The largest piece of canvas painting ever displayed at an exhibition of any kind in the United States, according to Mr. Miles, is to be hung in the roof of the Coliseum during the show. The scene depicted on the canvas is a thickly wooded forest with a blue sky. The whole piece will be 300 feet long by 180 feet wide and on account of its huge dimensions is being built in sections.

Move to Standardize Drugs.

An effort to have the federal government standardize all agents used as medicines and then compel importers and drug manufacturers to follow its standard is being made through a bill lately introduced in congress by Representative Caudrey of St. Louis to amend section 7 of the pure food and drugs act of 1906.

Setting Type by Hand.

A two-thirds compositor is one who has served two-thirds of the time considered necessary to make a full fledged compositor. The basis of measurement is an em, the square of the body of a type and the portion of a line formerly occupied by the letter M, then a square type. One thousand ems an hour on bookwork or 1,200 on newspaper work would be considered faster than the average, but George Arensberg and Joe McCann, two old time "swifts," each set more than 2,000 ems an hour in a typesetting trial in the early eighties.—New York Herald.

How's This?

We offer one Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure. F. J. Cheney & Co., Toledo, O. We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by him.

WALDING, KINNAN & MARVIN,
Wholesale Druggists, Toledo, Ohio.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75c per bottle. Sold by all druggists.

Take Hall's Family Pills for constipation.

Man and Labor.

Lady Russell in her volume "Swallowtail and His Owners" points out that in 1820 the Berkshire estate came into the hands of Sir Henry Russell, who had been a friend of Dr. Johnson. It was at Russell's table that one day the doctor maintained that "no man loved labor; no man would work if he could help it." Reynolds objected and gave Pope for instance. But Pope's inspiration, said the doctor, "was the love of fame and not the love of labor. Leander swam the Hellespont, but that doesn't prove that he loved swimming."

What Will He Care?

"Seems this poor poet starved to death."

"Yet his works had merit."

"Undoubtedly. I wouldn't wonder a bit if a hundred years from now they gave him a centenary."—Washington Herald.

Saved From Awful Peril

"I never felt so near my grave," writes Lewis Chamblin, of Malchester, Ohio, R. R. No. 3, "as when a frightful cough and lung trouble pulled me down to 115 pounds in spite of many remedies and the best doctors. And that I am alive today is due solely to Dr. King's New Discovery, which completely cured me. Now I weigh 160 pounds and can work hard. It also cured my four children of croup." Infallible for coughs and colds, it's the most certain remedy for LaGrippe, asthma, desperate lung trouble and all bronchial affections, 50c, and \$1.00. A trial bottle free. Guaranteed by H. P. Dunn. ttw

OPERA HOUSE
